HELP! Came in Time

While playing in the barn, the small daughter of a farmer in a nearby community fell and struck her head on a pitchfork.

Rushing to the Telephone, her mother called the Doctor.

His quick arrival resulted in saving the child's life.

On the farm where home and business are combined, the telephone is constantly on hand, ready for any of those emergencies that inevitably arise in every family.

IT ISN'T A HOME WITHOUT A TELEPHONE

GENERAL RULES AND REGULATIONS

Allowance for Failure of Service—The Telephone Company does not guarantee uninterrupted working of its lines or equipment. In case service is interrupted otherwise than by the negligence or willful act of the subscriber, an adjustment will, upon application by the subscriber, be made in the amount of the charges for such of the service, equipment, and facilities furnished as are rendered useless or inoperative. Any adjustment shall apply only to the period the interruption continues beyond twenty-four (24) hours after notice of the interruption is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

Change of Telephone Number—The company reserves the right to change any telephone number at any time to meet service requirements.

Default of Payment or Other Breach of Contract—All bills are due when rendered. Failure to receive a bill, will not exempt the subscriber from prompt payment as required by his contract. In the event of any default of payment, or other breach of the terms of its service contract, the company reserves the right to at once discontinue the subscriber's service or disconnect and remove the telephone equipment.

Directories—The telephone directory is published for the convenience of subscribers, but the company assumes no liability for damages to subscribers due to errors or omissions. No change in listings will be made or new listings inserted in the next issue of the directory, unless the necessary work of making the change or installation involved is completed before the directory form closes for the printers. The telephone directory is issued by and is the property of the Lincoln Telephone & Telegraph Company, and shall be surrendered upon delivery of each later issue. All persons are warned against attaching any

unauthorized advertisements, binder, holder, auxiliary cover or attaching any device that will in any way obscure or interfere with any authorized advertisement in the directory or on the cover thereof.

Foreign Equipment and Advertising Devices—The telephone equipment shall not be connected with any foreign equipment such as advertising novelties and devices for eliminating noise, aiding transmission, and destroying germs. Telephone instruments are designed to produce the best results and are necessarily sensitive and intricate. The many devices offered for sale are not only unnecessary but generally cause trouble, either of a mechanical nature or by marring the telephone instrument. In order to protect its service and equipment the Telephone Company will remove all advertising novelties and foreign devices from its instruments.

Information and Transmission Service—The Telephone Company assumes no liability for errors which may arise in imparting information nor for any errors or delays in transmission over the instruments and lines of the Telephone Company.

Right of Access to Premises—The agents of the company shall have the right to enter the premises of the subscriber, at all reasonable hours, for the purpose of inspection, repair or removal of the company's equipment or wiring. The company reserves the right to make observations of service rendered to the subscriber for the purpose of improving the service by detecting trouble or annoyances, or the improper use of the service by the subscriber.

Use of Equipment By Subscriber—The service is for the exclusive use of the subscriber, his employees and members of his family. The equipment shall be surrendered to the company upon the termination of the subscriber's contract.

How to Place Out-of-Town Calls

GENERAL INFORMATION ABOUT OUR LONG DISTANCE SERVICE

To place a long distance call remove the receiver from the hook and ask for Long Distance. When the Long Distance operator answers give her **your name, telephone number and the details of the call**, including when possible, the telephone number and street address of the party with whom you wish to speak. If the distant town can be reached promptly you will be asked to hold the line.

Information regarding the various classes of long distance service follows:

Station-to-Station Service

Should be used when you will speak with anyone who may answer the called telephone or when you know that the person with whom you wish to speak can be promptly summoned to the telephone by the answering party.

Rates for station-to-station service are lower than for other classes of long distance service because less operator labor and use of equipment are required.

Night Rates

Apply on station-to-station calls from 7:00 P. M. to 4:30 A. M. during which time the charges are about one-half the day station-to-station rate. This reduction applies only when the day rate is 40 cents or more. The minimum reduced rate is 35 cents.

Person-to-Person Service

Should be used when you wish to speak with a specified party. The rate for this class of service is somewhat higher than for station-to-station service as more time and labor are required to complete the call.

Appointment Calls

May be made when you wish to talk with a specified party at a designated time. The rate for this class of call is the same as the person-to-person rate.

Messenger Calls

When it is necessary to send a messenger to summon the person called to a telephone, it becomes a messenger call. The rate for this class of call is the same as the person-to-person rate plus the messenger charges.

Reversal of Charges

Charges may be reversed on all classes of long distance calls at any time without extra cost, except on station-to-station calls for which the rate is 20 cents or less.

Report Charge

A report charge is made on uncompleted person-to-person, messenger and appointment calls when failure to establish the connection is due to no fault of the telephone company. A report charge is also made on reversed station-to-station calls when the party answering the called telephone refuses to accept the charge and as a result the call is not completed.

The report charge is about one-fourth of the station-to-station day rate.

Rates and Charges

Call the Chief Operator for a full explanation of different classes of long distance service and rates.

Subscribers are held responsible for ALL TOLL CALLS originating at their telephones.

telephone
calls

People find these suggestions helpful

1. Please consult the front pages of your telephone directory for complete long distance information.
2. Please place your call by number whenever possible—it will save you time.
3. If charges are desired on the call, please notify the operator at the time the call is placed.
4. Please remain at the telephone until operator concludes the desired service.
5. If there is a delay and it becomes necessary to try again at a certain specified time, please try to be near the telephone at the designated time.
6. Please hang up the receiver promptly and gently when connection is completed.

Telephoning is a mutual undertaking that involves the person calling, the person called, and the telephone company's staff and facilities. Service, to be satisfactory, needs the closest possible co-operation of all parties concerned.

"My telephone saves me lots of time, labor and money," one of our farm customers told us. "I buy, sell and get the markets over the telephone. It has been very useful in calling the doctor and veterinary."

"There is never a day goes by that we don't use the telephone to some advantage. Under no circumstances would I attempt to operate my farm without a telephone."

In one emergency, your telephone may be worth more than service costs in a life time.

"Good Bye, Mary, I Smell My Dinner Burning"

**A Kitchen
Extension Saves
Many Steps.**

"I'll have to hang up, something's burning!" — many dinners are ruined when a call comes just as the oven needs watching.

An extension telephone in the kitchen will get more daily usage than any other telephone in the house. *The cost is only a few cents a day*—Installation will be made promptly.

"CERTAINLY...
Postal Telegrams
Can Be Sent From
Your Telephone!"

"Just call the telephone office and ask for Postal Telegraph when you want to send a Telegram."

POSTAL TELEGRAPH

the only American telegraph company that offers a world-wide service of coordinated record communications under a single management.

Every telephone exchange in southeastern Nebraska is a Postal Telegraph office.

SIMPLY lift your telephone receiver and ask for "Postal Telegraph" . . . and give your message to the operator, that's all. No fuss . . . no bother . . . no delay.

Just send your Postal Telegram by telephone and pay the charge when it appears on your regular telephone bill.
